Data Processing Services

Petrosoft's Data Processing Services (DPS) provides Electronic Data Interchange (EDI) integration and automated invoice data processing. Eliminate hours of paperwork, track costs, and inventory at item-level to increase operational efficiencies.

Simply scan and submit your invoice to receive an accurate digital version. Plus, CStoreOffice will automatically suggest price changes and inventory purchasing decisions based on your unique invoice data.

Key Features

- Invoices processed in an average of 24 hours
- Easily process invoices from vendors using EDI
- Scan invoices with mobile devices or the CipherLAB RS51 scanner
- Access additional functionalities when paired with CStoreOffice

Key Benefits

- 75% reduction in paperwork
- Save an average of 2 hours a day on manual data entry
- Reduce labor costs
- Increase item-level accuracy

“Data Processing Services helps us get new items in much faster than waiting until something doesn't scan. I cannot say enough good about it.

Melissa Albert,

General Manager, Marine Oil Company, Inc., Warsaw, NC
